9 DOPING CONTROL

9.1 General Information

Doping Control during the Naples 2019 Universiade will be strictly conducted by the Organizing Committee according to WADA and FISU regulations in order to ensure a fair competition and promote good sportsmanship.

Doping Control will begin from the opening date of the Athletes' Village and last until the end of the Universiade. Participating athletes must abide by the relevant regulations and follow given guidelines when they have been selected and notified for testing. Any athlete who refuses to undergo testing,

or interferes with the testing process, will be considered to have committed a doping violation and be subject to disciplinary action.

9.2 Doping Control Station (DCS)

Doping control stations are designed in accordance with WADA and FISU regulations. Samples for testing are collected in the Doping Control Station of each competition venue and can be collected at the Doping Control Center (Doping Control Station) located within the Athletes' Village.

9.3 Athlete Selection

The FISU Medical Committee will select athletes for testing. Either rank in a competition will be taken into account, or random selection and target testing will be applied.

9.4 Accompanying Persons

Athletes may be accompanied by an additional person (coach, trainer, team doctor, etc.) and an interpreter if desired.

9.5 Reporting to Doping Control Station

The athlete must report to the doping control station in a reasonable amount of time from selection. The athlete will be allowed to attend ceremonies, press conference, etc., as long as they are accompanied by their chaperon.

9.6 Sample Collection

Athletes selected for testing will be notified immediately following the competition and will be under constant visual observation by a chaperon until they enter the Doping Control Station. At the

station, sample (urine and/or blood) will be collected in a vessel, then sealed and submitted for transportation to the WADA approved laboratory under the supervision of a Doping Control Officer.

9.7 Athletes Obligation

The athlete must have their Accreditation with them at all times.

The athlete must report all medications taken in the prior month.

The athlete must present their TUE Document if he/she has one.

9.8 Testing Organization & Results

Collected samples will be analyzed usually within 48 or 72 hours of collection at a WADA-accredited laboratory, and results will be directly notified to the FISU Medical Chair.

Athletes who test positive for banned drugs and fail the doping test may be subject to disqualification and disciplinary action.

9.9 Additional Controls Requested

A team may request for doping control tests to be performed on an athlete who has not been selected for doping control.

Examples of indications for this request are for National Records, or Target Testing. These athletes have to complete the "FISU Doping Control Request Form". They will then be escorted to the Doping Control Station. Costs for these tests will be the responsibility of the requesting organization. Results management for these tests will be the responsibility of FISU and the appropriate International Federation.
